Presence

In the News

Harvard Business School is piloting a program with **Experience.ai** to capture experience data from learning, project performance and decision processes within case study groups. Harvard's vision is for every student to retain rights to experience data and build a critical personal digital asset for the future.

Real World

Assumption for 2020s:

Experience Data emerges on Campus, in the Workplace & in personal Lifelong Learning

Scenario: Talent Embraces Experience Capture Analytics

- Sarah **read** an article on blockchain for automating compliance
- Sarah **opened** an Evernote folder on blockchain solutions
- Sarah **watched** a Youtube video introducing the Ethereum blockchain
- Sarah **searched** for Ethereum Meetups in NYC
- Sarah **attended** the Crypto Compliance conference in NYC
- Sarah **created** a List of 'Ethereum Developers' (People) on Twitter
- Sarah **interviewed** *the Head of Blockchain Solutions at JPMorgan*
- Sarah **mentored** *with Joe Lubin co-Founder of Consensys*
- Sarah **completed a course** on Ethereum's Solidity programming language
- Sarah **demonstrated** her pilot Ethereum application at a NYC Meetup
- Sarah **taught** a Coursera MOOC on Ethereum for KYC / AML
- Sarah was hired as Lead Developer of Blockchain Compliance Solutions at Fidelity

"I did this..."
Statements

<Actor, Verb, Object>
“I did this”

- Thomas liked a Lucille Clifton poem he heard on iTunes
- Brentwood library invited Thomas to a Creative Aging poetry event
- Thomas enrolled in a creative writing class at Community College
- Thomas read Alice Walker for his creative writing course
- Brentwood library recommended an obscure Rita Dove poem
- Thomas performed his poetry at a local café event
- Brentwood library invited Thomas to a program on self-publishing
- Thomas self-published his first collection of poems
- Brentwood library added his book to their collection

Enterprise L&D: Early Adopters Preparing to Scale

The slide features a dark blue background with a white 'W' logo in the top left corner. The main title is 'xAPI xAPRIL Spotlight: Volume & Privacy'. On the right side, there are two circular headshots with names and titles: Sarah Lindsell, Global Chief Learning Strategist at PwC, and Steve Tomlinson, Global Senior Learning Architect at PwC. The PwC logo is also present in the top right corner.

How did we do it?: Where are we now?

April 2018:

Over 3 million statements so far

Over **110,000** learners who are sending xAPI statements

We are using **1** LRS system which is segmented by data for each country

Last three months increased our total by 1 million statements

Summer 2019:

We will have **250,000+** learners using it and sending xAPI

We will have a global learning analytics community of around 100 people whose role (full/part) is to look at learning data and help transform our learning

Start small and grow...this is a long journey

Outcome: Seeing What People Need vs They Tell You They Need

Searched verbs

Running training needs analysis in real-time

Using the searched verb we can analyse what people are looking for example:

- Tax legislation
- Tax processes legislation
- Excel macro creation
- Macro creation
- Coaching
- Coaching skills
- Coaching management skills

We can use this data to:

- Highlight need – see what learners want
- Match available learning to need and tag our content – dynamic curation
- Spotting holes in our learning – our gaps
- Global coverage – spotting patterns across countries, trending topics

Case Study: Caterpillar

**Understanding
LMS/CMS Activity**

**Expanding
Video-based Analytics**

When trying to help someone learn, the team considers these three vital questions:

1. Where does the learner want to go?

2. What does the learner know?

3. How can we develop the individual?

Scenario for 2020s:

First Year Students Bring Experience Data to Campus

EXPERIENCE
API

Assumption to Explore

**By 2025, Experience Data Will Become
Our Most Valuable Digital Asset**

and Controversial

If we capture experience data...

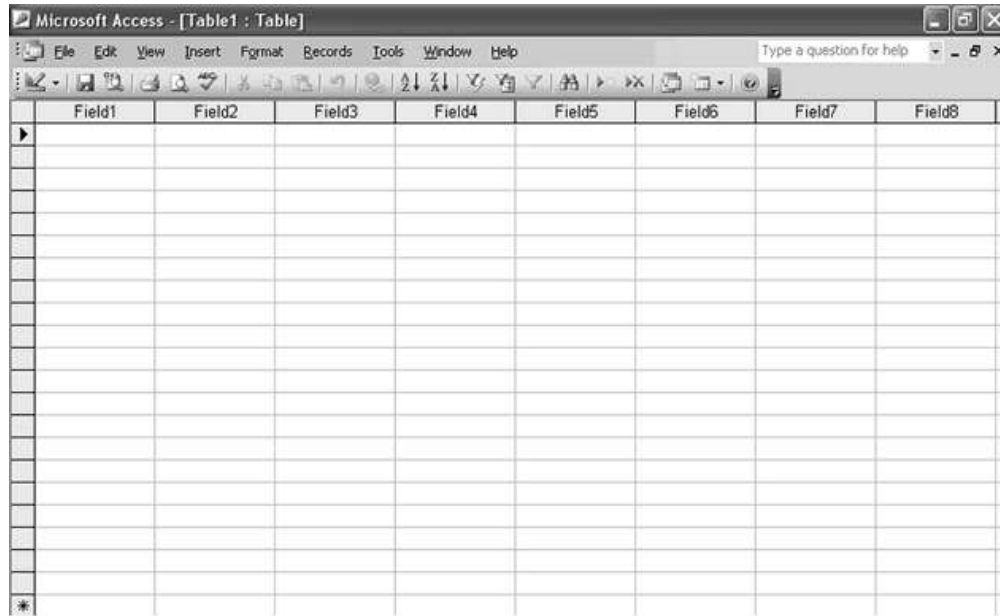

“I did this...”
Statements

How do we approach regulations?

How do we avoid the creepy line?

How do we make sense of it?

Building a Connected Data Foundation for Innovation

A screenshot of a Microsoft Access window showing a table with 8 columns labeled Field1 through Field8 and approximately 15 rows. The interface includes a menu bar (File, Edit, View, Insert, Format, Records, Tools, Window, Help) and a toolbar with various icons. The table is currently empty.

	Field1	Field2	Field3	Field4	Field5	Field6	Field7	Field8

Blockchain for Privacy, Control & Authentication

THE LEARNING IS EARNING 2026 GAME

BEGINS IN THE YEAR 2026 WITH "THE LEDGER,"
A NEW SYSTEM TO TRACK EVERYTHING YOU'VE LEARNED.

Imagine Students Getting
Rewards for Learning and Growing

The year is 2026

Our familiar institutions are about to be disrupted
by blockchain technology, which allows you to create
your personalized Ledger Account:

You can also use the Ledger to find investors in your education. Since the Ledger is already tracking income earned from each Edublock, you can offer investors a percentage of your future income in exchange for free learning hours. Our smart contracts make these agreements easy to manage and administer.

Scenario: Campus Life Meet Connected Experience Data

Short-term – 2019 -2023

- Map out opportunities & challenges
- What experience data could we create, capture and connect? (e.g. appropriate/ethical; actionable)
- Engage with existing efforts

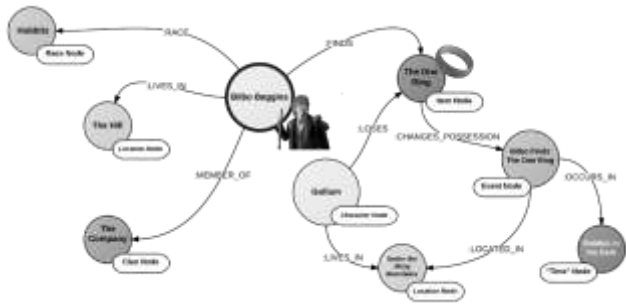

Long-Term – Beyond 2023

- Overcome Challenges (e.g. blockchain used for privacy)
- Align institutions, policies, social norms & technology capability

Training Staff in Restorative Practices

An emerging social science that studies how to strengthen relationships between individuals as well as social connections within communities.

Five Universal Truths of Human Interaction

1. People want to be treated with dignity and respect.
2. People want to be asked rather than being told to do something.
3. People want to be told why they are being asked to do something.
4. People want to be given options rather than threats.
5. People want a second chance when they make a mistake.
